Restricted Components Customer Identification and Use Verification

The chemical you wish to purchase is identified as a Restricted Component, and is Federally regulated by the Explosives Regulations, 2013, enforced by Natural Resource Canada's Explosive Regulatory Division. As a seller of these products, Dimachem Inc requires customers to complete this form and provide the appropriate documentation prior to any sale.

Company Name:
Address: City:
Province: Postal Code:

Select the applicable Intended Use Category for Hydrogen Peroxide (concentration of at least 30%)

To be Used in Manufacturing of Explosives

If the Restricted Component is used to manufacture explosives, the Purchaser must attach proof of a licence, permit or certificate issued under the Explosives Regulations.

Reseller/Component Seller

If the Purchaser is intending to resell the Restricted Component, the Purchaser must attach proof of enrolment of the *List of Component Sellers of Restricted Components*.

Product Seller

If the Purchaser uses a Restricted Component to manufacture or produce a product for resale, and the final product contains the Restricted Component in any concentration, the Purchaser must attach proof of enrolment on the *List of Product Seller of Restricted Components*.

End-User For a Restricted Component

If the Purchaser uses a Restricted Component in a process that will completely consume that Restricted Component, the Purchaser must provide: 1) Statement/declaration of intended end-use and 2) either a copy of

- a. A Canadian Federal or Provincial Photo ID
- b. A Business Licence
- c. Proof of Corporate Registration

End Use Statement:

I certify that the information provided in this document is accurate and complete, and that I am an authorized individual to represent this company.
