Our Products

DETERGENTS

DAIRY ALKALI CIP ROBOT

- High-performance alkaline cleaner for dairy CIP systems
- Effectively removes fats, proteins, and organic residues
- Ensures optimal hygiene and cleaning efficiency
- Compatible with robotic and traditional CIP systems

DAIRY ALKALI RE-SHINE

- Heavy-duty alkaline cleaner for dairy CIP systems
- Removes stubborn fats, proteins, and organic buildup
- Restores stainless steel surfaces to a polished finish
- Enhances hygiene and operational efficiency

DAIRY ALKALI CIP

- Alkaline cleaner for dairy Clean-in-Place (CIP) systems
- Effectively removes fats, proteins, and organic residues
- Ensures thorough cleaning and hygiene compliance
- Suitable for automated and manual CIP processes

SANITIZERS

CHLORINE SANI-IT

- Fast-acting chlorine-based sanitizer for food processing facilities
- Effectively eliminates bacteria, mold, and other contaminants
- Ideal for use in CIP systems and surface sanitation
- Ensures compliance with food safety and hygiene standards

OXYFRESH SANITIZER

- Peracetic acid-based sanitizer for food and beverage industries
- Rapidly eliminates bacteria, yeast, and mold
- Ideal for CIP systems, surface sanitation, and equipment cleaning
- Ensures compliance with food safety standards

HYDROGEN PEROXIDE FOOD GRADE 35%

- High-purity 35% hydrogen peroxide for food and beverage applications
- Effective oxidizer for sanitation and disinfection
- Used in aseptic packaging, food processing, and water treatment
- Meets food-grade quality standards

HYDROGEN PEROXIDE FOOD GRADE 35%

- Powerful acid descaler for removing mineral deposits and scale buildup
- Ideal for heat exchangers, boilers, and CIP systems
- Restores equipment efficiency and prolongs lifespan
- Safe for use on stainless steel and food processing equipment

Commitment to Quality and Safety

Certifications:

ISO 9001:2015
(Quality Management Systems)

ISO 14001:2015
(Environmental Management)

ISO 45001:2018
(Occupational Health and Safety Management)
